ESTIMATED CASH VALUE

Whenever the actual cash value of a lot bears little relation to standard catalogue values, or when no catalogue value can be applied we will give an Estimated Cash Value as part of the description. This represents our professional evaluation of the fair market value of the lot, and bids of fractional amounts of the Estimated Cash Value are not likely to succeed.

ESTIMATED CASH VALUE

Whenever the actual cash value of a lot bears little relation to standard catalogue values, or when no catalogue value can be applied we will give an Estimated Cash Value as part of the description. This represents our professional evaluation of the fair market value of the lot, and bids of fractional amounts of the Estimated Cash Value are not likely to succeed.

ESTIMATED CASH VALUE

Whenever the actual cash value of a lot bears little relation to standard catalogue values, or when no catalogue value can be applied we will give an Estimated Cash Value as part of the description. This represents our professional evaluation of the fair market value of the lot, and bids of fractional amounts of the Estimated Cash Value are not likely to succeed.

ESTIMATED CASH VALUE

Whenever the actual cash value of a lot bears little relation to standard catalogue values, or when no catalogue value can be applied we will give an Estimated Cash Value as part of the description. This represents our professional evaluation of the fair market value of the lot, and bids of fractional amounts of the Estimated Cash Value are not likely to succeed.

ESTIMATED CASH VALUE

Whenever the actual cash value of a lot bears little relation to standard catalogue values, or when no catalogue value can be applied we will give an Estimated Cash Value as part of the description. This represents our professional evaluation of the fair market value of the lot, and bids of fractional amounts of the Estimated Cash Value are not likely to succeed.
